

How to use our new www.moishop.de

Welcome everybody to the new but aproofed MOYSHOP! This smal overview should tell you how to use our new shop environment and how easy it is to launch an order.

Have fun!

Your MOYSHOP-Team

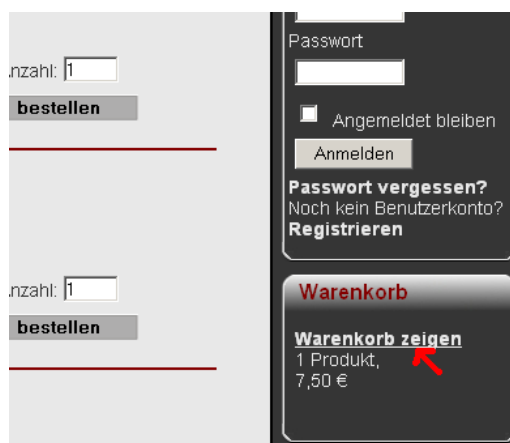

Of course you can browse thru our product groups as you are used to do. That free for everybody. We kept the same order like it was under our old shop system.

If you have chosen the product group you would like to inspect just click it and the center page will show you all sub-product-groups to the chosen one plus all article within it.

If you like to have a closer look to a product - just click the small image and you will get a bigger one. More information needed? Just click to "Produktdetails"

If you would like to order a product just click "bestellen" - you could alter the amount of items you would like to order, if we have more than one in stock. Normally we dont have many of the older models in stock - also on limited editions we might only have 1 or 2. As in a normal market you can add as many items to your basket as you like. Take your time to scan the shop and add what you like. You only pay flat rate shipment once - doesnt matter how many models you choose. At the end of your turn just head towards the chashier (Kasse).

Any time you add a product to your basket the whole basket is shown to you - you can also have a look at it clicking "Warenkorb anzeigen".

Just enter that code in the field on the basket page and click "Absenden" to use that voucher in this session. From time to time we will issue special vouchers - so you should get our monthly newsletter under info@moyshop.de - simple email to insure you are on the list.
